The Department of Epidemiology Lazio Regional Health Service &#65533; ASL Roma E &#65533; and the Italian Epidemiological Association are pleased to announce the 28th Conference of the International Society for Environmental Epidemiology. The meeting will be held in Rome, Italy on the 1-4th September 2016. The main theme of the conference is &#65533;Old and new risks: challenges for environmental epidemiology&#65533;. The Conference will bring together researchers, academics, and health professionals to promote the sharing of research results, experiences and new ideas in the field of environmental epidemiology. The Conference will address the challenges in exposure assessment, study design and data analyses in the coming decades. The format of the meeting will promote discussion and scientific communication and will include plenary sessions, keynote invited addresses, oral presentations, thematic symposia, and posters. &#65533; For information and updates on the Conference please visit our website www.isee2016Roma.org
